## Product Data Sheet: DEHNgate - SPDs for Coaxial Connection

## DGA L4 716 MFA (929 148)

- Maintenance-free combined lightning current and surge arrester for multi-frequency applications
- Maximum transmission and PIM performance
- For installation in conformity with the lightning protection zone concept at the boundaries from $0_{A}-2$ and higher

Basic circuit diagram DGA L4 716 MFA

Dimension drawing DGA L4 716 MFA

Combined lightning current and surge arrester with maintenance-free quarter-wave technology for multi-frequency applications (multi-carrier systems). The arrester is also capable of discharging high partial lightning currents. No remote supply as the arrester represents an electrical short-circuit for low-frequency signals. Broadband device for all 4+3G services.
